**13<sup>th</sup> Postgraduate Continuous Course in Clinical Chemistry and Laboratory Medicine  
“NEW TRENDS IN DIAGNOSIS AND MONITORING USING POC INSTRUMENTS”  
Dubrovnik, 19-20 October 2013**

Dear President and National Representative,

We kindly remind you that the 13<sup>th</sup> Postgraduate Continuous Course in Clinical Chemistry and Laboratory Medicine: New Trends in Diagnosis and Monitoring Using POC Instruments, is almost in front of us.

The Course will be held at the Inter-University Centre Dubrovnik on 19-20 October 2013 with goal to bring the latest news on POC testing in the health care to the clinical chemists, specialists in laboratory medicine and medical doctors. The complete programme and all information about it can be found on the web ([www.dubrovnik-course.org](http://www.dubrovnik-course.org)). Please visit our web site where you will have an opportunity to see the latest news.

The Course important data:

- **Application for the bursary**                      **August 1**  
(<http://www.dubrovnik-course.org/bursary>)
- **Application for posters**                      **August 1**  
(<http://www.dubrovnik-course.org/posters>)
- **Early registration fee**                      **August 31**  
(<http://www.dubrovnik-course.org/registration>)
- **Late registration fee/on site**                      **September 1**  
(<http://www.dubrovnik-course.org/registration>)

For the first time this course is open for the poster session. The participants are invited to submit their posters. 2-3 posters will be chosen for short oral presentation. All information please find on the Course web site. The best poster chosen by the Scientific and Organising Committee will be awarded.

Exhibition of the POC instrument will be present, so participants will have an opportunity to see the instrument and meet their producers and/or distributors. The course will be credited by National rules.

We are hoping to welcome you in Dubrovnik where you will have an opportunity for an interactive discussion during the Course official time as well as during social events.

Best regards,  
*Ian Watson*, EFLM President  
*Elizabeta Topic*, Course Chair
